FREE

COURSE BY MAIL

WITH THE
CAPITAL CITY
COMMERCIAL COLLEGE

TO ADVERTISE

OUR COLLEGE

We will give a thorough course of instruction in Double and Single Entry Book-keeping, and Commercial Arithmetic by mail FREE OF CHARGE to a limited number of persons. This course will be completed in forty lessons. No charge for Diplomas.

Our method of instruction by mail is far superior to that of any other school in the West. Hundreds of testimonials of our patrons, testifying to this fact, are on file in our office. The phenomenal success attained in this department prompted us to widely advertise our work, and to make it a special feature of our school.

The Instructions and Exercises are conducted by mail practically in the same manner as those in our College Rooms which makes them equal with personal instructions, and lead the student to a full and clear understanding of the science of accounts.

Our Mail Department

Is under the personal supervision of an able instructor, under whose guidance the highest degree of competency may be attained by correspondence.

We offer the above-named course free to introduce our work in your community. Avail yourself of this offer at once, and show the superiority of our work to your friends.

BREEDING BUFFALOES.

Some of the Hybrids That Are Produced Are Fine Animals.

A famous Montana character is Charlie Allard of Ravalli. Mr. Allard is famous mainly because he is one of the owners of the largest herd of buffalo in the country, and no man living has given to these now rare animals more patient study and attention than he.

"The coldest storms of winter do not trouble them," he says, "for their thick, shaggy coats are windproof. During the heavy snows and blizzards they climb the hills, and turning their backs to the wind defy the storm. They feed where the snow is thinnest. Cattle are driven before a storm and will often go with a wind 60 or 100 miles from the accustomed range unless they reach a sheltered spot. Horses turn their backs to a storm, but the buffaloes face it every time. They seem to keep in about the same condition of flesh the year round and are as good eating in the spring as they are in the fall, and a buffalo steak is about as fine a morsel as ever a man made a meal of. About two years ago I purchased the Jones herd of buffalo, which was at Omaha. There were 31 of them in the herd, and we paid for it a partner now \$18,000 for the lot. Marcello Pablo, a well known cattleman, has joined me in the business and for the past year has had entire charge of them, so that I do not know just exactly how many we have—about 140, I should judge, now, and by next fall there will be fully 200 of them.

"We have experimented in crossing buffalo with all breeds of cattle, and the results are most satisfactory. The Polled Angus stock when crossed with the buffalo produces a magnificent animal. The fur is finer and closer than that of the buffalo, and the meat is sweet and wholesome. We are producing as many of these animals as possible, but will not put any on the market for several years yet. We are not selling any buffalo either, for the reason that we need them all at present. We receive letters every day from museums, parks and shows wanting them in all quantities, and though we might dispose of one or two singly we have no pairs to sell.

"A good buffalo hide is worth \$100 now in the market, and heads bring from \$200 to \$500 when mounted, and the value of these is steadily increasing, so that buffalo breeding is as good an investment as real estate. Our herd is about the only one I know of any size. There is a small one in the Texas panhandle, and these, with the few that roam in the national park, are the sole remnants of the thousands which roamed the prairies but a few years ago."—Anaconda (Mon.) Standard.

TWO INVENTIONS IN ONE.

The Kinetograph the Latest Marvel Turned Out by Edison.

"We are progressing, progressing," said Thomas A. Edison to a Boston Herald representative when informed that his retreat had been invaded for the purpose of getting information concerning the latest and greatest of his inventions, the one which is being eagerly awaited and which very few have had a chance to see—that is, the combination of the phonograph with the kinetoscope, the contrivance to which Mr. Edison applied the term kinetograph on this occasion.

"The object of this machine," he said, "is to afford the spectator two inventions in one—that is, two senses are simultaneously appealed to. Suppose, we will say, an opera is to be reproduced. The phonograph already repeats the sound. The kinetoscope afterward affords a view of the movements. Now, however, we wish to combine the two and combine them far more effectively than ever their distinct elements have heretofore been rendered by separate instruments.

"Thus, if one wished to hear and see the concert or the opera, it would only be necessary to sit down at home, look upon a scene and see the performance reproduced exactly in every movement and at the same time the voices of the players and singers, the music of the orchestra, the various sounds that accompany a performance of this sort, will be reproduced exactly. The end attained is a perfect illusion. One really hears and sees the play, because the conditions necessary to the suitable impressions upon the eye and ear are obtained."

An Unlucky Draw.

Don Simplico, to dispel the clouds of melancholy that cast a gloom over his spirits, has taken to theater going. "Ernani" was produced, and everybody spoke highly of the performance, our hero among the rest.

"But there is one fault about it," he said on coming out of the house one evening.

"What is it?"

"I'll tell you. In the third act, where the conspiracy takes place, they draw lots to ascertain which of them is to kill Charles V. Now, what was drawn the first night? Ernani. And the second? Ernani. And the third? Ernani again. Always Ernani. Six nights running! Now, that's unlikely on the face of it. For the same name to be drawn once or twice may pass, but six times running—that is too much."

His remarks were received with a regular ovation. —Giornale delle Donne.

Children Cry for Mother's Castoria.

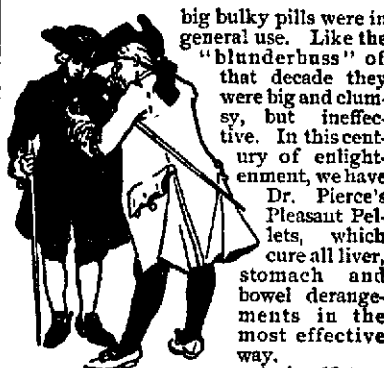

VIGOR OF MEN

Easily, Quickly, Permanently Restored.

Weakness, Nervousness, Debility, and all the train of evils from early errors or later excesses, the results of overwork, sickness, worry, etc. Full strength, development and long life given to every organ and portion of the body. Simple, natural methods. Immediate improvement seen. Failure impossible. 2,000 references. Book, explanation and proofs mailed (sealed) free.

ERIE MEDICAL CO., Buffalo, N.Y.

In Our Great Grandfather's Time.

big bulky pills were in general use. Like the "blunderbuss" of that decade they were big and clumsy, but ineffective. In this century of enlightenment, we have Dr. Pierce's Pleasant Pellets, which cure all liver, stomach and bowel derangements in the most effective way.

Assist Nature a little now and then, with a gentle, cleansing laxative, thereby removing offending matter from the stomach and bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, biliousness, pimples, blotches, eruptions, boils, constipation, piles, fistulas and maladies too numerous to mention.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

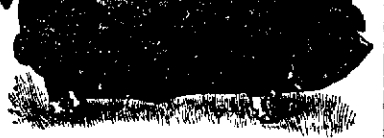

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequalled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity, with sufferers from habitual constipation, piles and indigestion.

A free sample of the "Pellets," (a 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card.

</

SIBLEY AND SILVER.

Congressman Sibley General Warner addressed a large meeting in Metropolitan Hall, San Francisco, on the silver question. The city papers, even those of the Cleveland and Sherman silver stripe, concede that the audience was large and enthusiastic and that the arguments of the speakers were appreciated. Mr. Sibley said in traversing the West it occurred to him that there should be a law passed that before any man was eligible to the Chief Magistracy of this nation he should be compelled to cross at least the Missouri River.

"There will be but two parties in 1896," said Mr. Sibley, "the Gold Monometallic party and the Bimetallist party. We have had gold monometalism for two years. There are a few who have benefited by it and they will loyally stand by it, but those who, despite their tolls, their efforts and their struggles, have been bankrupted and beggared, those who have seen the misery, want and crime incidentally following upon it, should feel it their duty to consider fairly and truly the question whether the time has not come to sink our partisanship and exalt our patriotism? The wheat, corn, beef and products of mother earth, and all the products of industry have maintained their parity in exact ratio with an ounce of silver. If the United States produced all the silver the mine owners' total production would bear not a tithe of the loss that is sustained each year by the farmers. The ounce of silver has been the measure of the value of the bushel of wheat for the past twenty years. Up to the time we demonetized silver, wheat never exported wheat. It could not compete with the American wheat grower. It is now on a silver basis and with silver at 120 cents an ounce, wheat could not be a competitor of the United States in wheat production. But when England can buy an ounce of silver at less than its coinage value the difference was so much bounty to the wheat-grower in India. An ounce of silver equals two and a half rupees, and a bushel of wheat brings the same amount of rupees in India that it did twenty years ago. The ounce of silver lays down a bushel of wheat in Liverpool and the silver has the same debiting power in India it had in 1873, while the American farmer who receives an ounce of silver for a bushel of wheat can only pay sixty cents with the silver.

The United States, in her commercial transactions with the gold-using nations of Europe, embracing altogether about 25,000,000 of people, had a balance of trade in her favor last year, amounting to \$250,000,000, by its terms payable in gold. We were the creditor nation in our transactions with them, therefore we can say what money we will take. They had to have our beef and corn and products of the mother earth. They did not want the products of our furnaces, forges, looms and spindles—because they can do that cheaper than we can, therefore they took the products of mother earth, and after we took four hundred millions of their manufactured products, we still had a balance of trade amounting to two hundred and fifty-eight millions. What difference is it to us whether England, or Germany, or France, or the continent, like our money or dislike it. They have got to have this wheat. They cannot take less and maintain life. They have to come to us for their food.

If we slip to the silver basis, however, and Mr. Cleveland's contention is true, that we are going to have only the fifty-cent dollar, the moment we open our mints to free coinage, let us see it at the worst. If an importer of the United States wishes to buy from Germany, France or Great Britain, he must go to the banks and buy gold exchange, which will cost him 100 cents premium. We have got a protective tariff of 140 per cent. What would be the effect? To cut the importations of manufactured products in two, and instead of importing about \$100,000,000 of manufactured products, we would probably cut it down to \$200,000,000 and set to work the furnace, the forge, the loom, the spindle, the machine shop and the factories. American artisans, instead of German, French or English, would fabricate for our use the products necessary, and that \$250,000,000 which we had last year would be swelled to double the amount, perhaps, which would be \$500,000,000, instead of \$250,000,000.

Mr. Sibley contends, and substantiates his contention, that with the demonetization of silver the tide would turn in our favor, and within a few years the United States would be the commercial mistress of the world. The question for the people to determine is whether we are going to divide into parties in 1896 and let the fetters be fastened for four years more. This is the people's cause and we cannot win it within party lines, as the Republicans and Democrats of the East, who control the party organizations, believe in gold monometalism.

DOESN'T LIKE THE FACTS.

The JOURNAL, for the enlightenment of the taxpayers of the county, published the fact that the Board of County Commissioners had allowed claims during the four months of the current calendar year aggregating \$31,919.84. It also stated that the estimated receipts from taxes on real estate and personal property for the whole year

for county purposes amounts to about \$48,000. That was the height of its offending, but it was enough to arouse the ire of the gang that it appears had been profiting by the expenditure.

The JOURNAL did not state what some of the claims against the county were for, nor the character of some of the bills presented for the allowances and it is not disposed to do so just yet as it may appear in another form, but, if the organ of the gang or any member of it desires the information the JOURNAL will furnish it.

What the JOURNAL published for the information of its readers the organ of the gang was paid for publishing. It was all right to publish the claims for coin in the gang organ, but an unpardonable offense in the opinion of the Chief Magistracy of this nation he should be compelled to cross at least the Missouri River.

"There will be but two parties in 1896," said Mr. Sibley, "the Gold Monometallic party and the Bimetallist party. We have had gold monometalism for two years. There are a few who have benefited by it and they will loyally stand by it, but those who, despite their tolls, their efforts and their struggles, have been bankrupted and beggared, those who have seen the misery, want and crime incidentally following upon it, should feel it their duty to consider fairly and truly the question whether the time has not come to sink our partisanship and exalt our patriotism? clubs be organized, and that members of both the old parties be invited to become members of the clubs. The newspaper printed here as the organ of the party has undertaken to circulate silver literature among the farmers of the State.

PEACE IN THE ORIENT.

Russia Acting on the Defensive.

YOKOHAMA, May 9.—China has withdrawn her request to have the armistice prolonged, and ratifications of the treaty of peace were exchanged at Chee Foo at midnight.

LONDON, May 9.—A dispatch to the Times from Chee Foo says Russia disclaims any aggressive designs against Manchuria, and asserts that she is acting on a purely defensive footing.

SALT LAKE SENSATION.

A Minister and a Lawyer's Wife Arrested.

SALT LAKE, May 9.—Rev. W. D. Mahry, pastor of a congregation here, and Mrs. W. C. Riley, the wife of a prominent lawyer, were discovered by the police in a compromising position in the minister's study. Both were arrested. Mrs. Riley was released on bonds, but the minister is still in jail. Both stood high socially, and the affair has created a great sensation.

GOOD NEWS FOR CADELARIA.

The Tailings to be Worked and the Mines Opened Up.

A firm of machinists in Chicago is now at work on the appliances for the company about to handle the tailings of the Holmes Company at Belville. It is expected that the plant will be on the ground before many weeks have passed, and that operations will be in full blast before the dog days.

Colonel Sutherland, president of the company, is expected to return shortly, he having temporarily given up his contemplated trip to Europe and South Africa. It is expected that orders will be received immediately to open up the mines of the company at Cadellaria, which will have to be operated under the terms of the big contract recently signed with the eastern syndicate.—Enterprise.

A Class Excursion.

The Junior class of the High school visited Carson yesterday, leaving on the morning train. On arriving at Carson they were received by members of the Junior Middle and Senior grades of the school there, and were escorted to the High school, and after visiting it, buses were procured and they were taken to the prison, capitol, mint and Indian school and other points of interest. They were especially favored by being shown through the mint, notwithstanding it has been closed to visitors for some time. For this favor they are indebted to several influential citizens of Reno. The day was pleasantly spent and the class profited by the visit. They returned home in the evening very grateful to the High school pupils of Carson for the day's entertainment.

Hume Yerrington, John Kersey, Geo. T. Mills, C. E. Bray, John P. Meder, James Meder and many other representative Caranites were among the excursionists last night.

BORN.

WILSON.—In Reno, May 9, 1895, to the wife of S. B. Wilson, a son.

AYER'S Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Cures others, will cure you

NEW TO-DAY.

PROPOSALS FOR SUPPLIES.

SEALED PROPOSALS FOR FURNISHING supplies delivered at the Nevada Hospital for Mental Diseases at Reno, Nev., for one year from July 1st, 1895, will be received up to

June 15th, 1895.

All articles to be first-class of their kind and to be delivered in such quantities and at such times as may be required by the Superintendent, quantity varying each month as directed by him, all articles not satisfactory to be returned at contractor's expense. Bids to be directed to Clerk of Board of Nevada Hospital Commissioners, Carson City, Nevada, up to June 15th, 1895, at 1 P. M., at which time all bids received will be opened and considered. The Board reserves the right to reject any or all bids. For list of articles to be furnished and conditions of contract apply to Dr. H. Bergstein, Superintendent of Hospital, Reno, Nevada. Envelopes enclosing bids should be marked "Proposal for Supplies."

By order of the Board, W. R. DAVIS, Clerk.

Driving Horse for Sale.

A fine roadster, gentle and kind, suitable for a business man or any one wanting a spirited horse, for sale cheap. Inquire of S. C. NORTROP.

A GENTLE WOMAN

Washes a toilet cream to promote that

Brilliant Transparency

of the skin, which is the true beauty of the complexion.

She wishes the refreshing, soothing effect of the best and simplest ingredients blended into a perfect cream. She finds it in Cocoona Cream and will have no other.

She never uses the paints and face bleaches which are so injurious to the skin.

GENTLEMEN after shaving find Cocoona Cream most excellent.

COCOONA WATER is the natural fragrance of flowers for the toilet and bath.

COCOONA BALM Prevents and cures chapping, breaking and roughness of the skin.

THE COCOONA TOILET SPECIALTIES are manufactured only by the

Cocoon Company,

SAN FRANCISCO, CAL.,

and we have secured the agency of same, as it is our constant effort to supply the public with the finest and latest Toilet Artcles and the purest of Drugs and Medicines.

FOR SALE BY WM. PINNIGER.

Viavi.

A physician of Reno says he would have more faith in Viavi, if we did not claim so much for it. Doctor, how can we help it, if it makes the cure for instance? Its use in Mr. Hunter's case is entirely out of its legitimate line, yet note the result. He was suffering from a severe headache, the physician expected him to die in three days. He used it three times and the pain was still as great. He was kept under opiates, to which I objected as I believe in curing pain instead of stupefying the body. The doctor said it was not probable he would ever get out again, and we must make him as comfortable as possible. I was not satisfied, I paid the doctor and sent for another. He assured me all had been done that could be, that he would have prescribed about the same. I discarded all medicine and used Viavi. In one night, with nothing but hot and cold water and Viavi Cerate, I gained control of the pain, and in two or three days not a vestige was left, and in two weeks he was on the street. There are other cases here just as wonderful. I will be glad to explain its uses to all who call.

Mrs. B. E. HUNTER.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began the use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. for large bottle. At Hodgkinson's Drug Store.

Our Grandmothers Way

Was to steep roots and herbs and use it every night. We can do the same by using Parke's Tea. Nothing acts so promptly and without discomfort. Not a pill or a cathartic, but moves the bowels every day. Sold by S. J. Hodgkinson.

Distinguished Speakers.

Miss Susan B. Anthony and Rev. Anna Shaw, two of the most noted public speakers of the day, will address the citizens of Reno at the Opera House May 17, 1895.

The New Spring Hats

Are all adorned with roses. The roses on your cheeks can be retained by using Parke's Tea. It clears the blood of impurities, moves the bowels every day and gives health and strength to the user. Sold by S. J. Hodgkinson.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became a Girl, she clung to Castoria.

When she had Children, she gave them Castoria.

Why Don't You

Use Parke's Tea for headache, constipation and that "tired feeling." It purifies the blood, beautifies the complexion, acts upon the sluggish liver and moves the bowels every day. Only herbs and plants, safe, sure and pleasant. Sold by S. J. Hodgkinson.

Mr. and Mrs. W. H. Frazer desire to thank the friends who so kindly bestowed upon them neighborly ministrations and sympathy in the time of their deep affliction.

In another part of the paper will be found the new advertisement of the Bank of Nevada, announcing the new officers and directors. It is worth one's while to read it over.

It takes an experienced apothecary to dispense prescriptions in a proper manner. W. Plummer has returned from his trip and is prepared to give this department the attention it requires.

The "Lady of Lyons" will be given on Wednesday, the 22d inst., by local talent. The costumes will be elegant and the make-up perfect. Mr. E. S. Laurie, who is now training the cast, promises a splendid performance.

Quite a number of the delegates to the Grand Lodge A. O. U. W., which has been in session for a day or two past at Winnemucca, returned on yesterday afternoon's west-bound, and the Comstock delegation left for home by a private conveyance.

World's Columbian Exposition

Was of value to the world by illustrating the improvements in the mechanical arts and eminent physicians will tell you that the progress in medicinal agents has been of equal importance, and as a strengthening laxative that Syrup of Figs is far in advance of all others.

The Senator Blisters the President.

A WONDERFUL DISCOVERY.

Gold Monopoly a Blessing to Farmers, but They Don't Know it.

Senator Stewart of Nevada has sent the following to the President:

Mr. President: Your letter to Governor Stone of Mississippi is admirable. It wholly exonerates you from all suspicion of shrinking from your plain constitutional duty of personal participation in political controversies which agitate the people.

Your treatment of contumacious officeholders illustrates the benefits of civil service reform when you tell them that, in the interest of good government, such office holders must not be surprised if they are summarily dealt with.

A WONDERFUL DISCOVERY.

You say: "I have never ceased to wonder why the people of the South furnish so largely as they do products which are exported for gold, should be working to submit to the disadvantages and loss of a silver monetary standard, and to content themselves with a depreciated and fluctuating currency, while permitting others to reap the profit from the transmutation of the prices of their productions from silver to gold."

The originality of your discovery that the South favors silver monetary standard when they only contend for the coinage of silver upon terms and conditions applicable to the coinage of gold can never be questioned.

You will undoubtedly explain in your next letter why the free coinage of gold and a refusal to coin silver is fatalism, and the unrestricted coinage of both gold and silver is silver monetary standard.

Your wonder why the South does not appreciate the advantages of selling their exports for gold prices is in harmony with the profound thought and great wisdom of your Chicago letter, wherein, referring to the farmer, you said: "Let us remind him that he must buy as well as sell; that his dreams of plenty are spared by the certainty that the price of the things he has to sell is nominally enhanced, the cost of things he must buy will not remain stationary."

SUPERIORITY OF SOUND MONEY.

From your unselfish point of view there is no answer to this argument.

The discovery you have made that the sales and purchases of the farmers and planters in a cheap gold market exactly balance each other, and that what is lost by the low price of sales is gained by the low price of purchases, solves the question and shows your full comprehension of all the principles of economic science.

The fact that less than 300,000 pounds of cotton, or 33,000 bushels of wheat, would pay the \$53,000 annual salary President Grant received, while it now requires 1,000,000 pounds of cotton, or 83,000 bushels of wheat, to pay your salary, which is the same number of dollars as that of your predecessor, shows the superiority of the "sound money" you have established and maintained.

The benefits you confer upon the planter by relieving him of 700,000 pounds of his surplus cotton, or upon the farmer in saving him the storage of 30,000 bushels of wheat, naturally inspires that "universal care for the rights of all non-sectarian American brotherhood and manly trust in American citizenship in every part of our land," to which you so touchingly refer.

"The comfort and satisfaction you must derive from the reflection that you are conferring such vast benefits upon the people of all the sections of our beloved country, without the slightest injury to that long-suffering class of bondholders and officeholders, to which you belong, must be your reward for your devotion to the public good."

You will not allow the indignation and contempt you naturally feel for your office holders, who will fully repudiate the "sound money" provided for them, to mar your pleasure in contemplating the perfection of the machinery you have constructed to facilitate the use of the official air.

Your "wonder" at the imbecility of the farmers and planters in failing to appreciate the benefits of a cheap market for what they sell, is most reasonable and natural from your unselfish and comprehensive view of the subject.

You take into consideration that a cheap market, where they sell, creates a cheap market for what they buy, and you fully realize, if they do not, the advantages they have in selling more than they buy, and thereby relieving themselves of more cheap products than they are compelled to sell.

ALL BLESSINGS IN DISGUISE.

They are at liberty to sell enough more than they buy to obtain money to pay interest and taxes, which to them may seem a hardship, but which, on account of your superior wisdom and patriotism, you know to be a blessing which their dull comprehension

Royal Baking Powder

ABSOLUTELY PURE

fails to appreciate.

Two billions of interest on thirty thousand millions of debt, public and private, with five hundred millions contributed for the support of the Government and a thousand millions required for State and local taxation, are benefits to purchasers, when viewed from the unselfish standpoint of creditors and officeholders.

"The luxury of buying in a cheap gold market with money remaining after discharging these nominal obligations is not sufficiently prized by the discontented planters and farmers. The slight discrepancy between the amount lost in sales by low prices and gains by purchases in a cheap market ought never to be considered, and is properly excluded from the wise and benevolent counsels of Wall and Lombard streets, and also from the learned deliberations of the White House, where your annual salary of \$50,000 is promptly paid.

The great prosperity which your successful leadership has secured shows what a glorious consummation it would be to capture the gold monometallic platform prepared by the Rothschilds for the exclusive use of John Sherman and his associates.

Your declaration that the gold standard established by the Republican party in 1873 is the traditional doctrine of sound money of the Democratic party, ought to inspire every Democratic heart with unbounded enthusiasm.

You are right. There is not room enough on a gold standard platform to accommodate the two old parties in an active campaign before the people, although the leaders of both have jointly occupied that platform for the purposes of legislation and administration for more than twenty years.

THE NAPOLEON OF FINANCE.

The grand success achieved by the gold forces by the common use of the aforesaid Rothschild platform during several intervals between popular elections shows the inspiring effect of a gold monopoly, and demonstrates that the Jauns-faced platform and good-lord-good-devil candidates are no longer necessary. "You have enthused all your faithful followers with that municipal inspiration of gold monopoly which has controlled the legislative and executive departments of the Government for the last twenty years.

You have achieved the proud distinction of being the first great American statesman who proclaimed to his fellow countrymen the glory and benefits of the single gold standard. You have the right to eject the Republican party from the platform of sound money, which you have rescued from the ignominious obscurity of clandestine use by timid and unworthy Republican leaders, who secretly monopolized the benefactions of the gold combination, until you appeared as the Moses of scattered Democracy.

Your wisdom and courage in commanding the Democracy to march to the front and capture, at all hazards, the emblem of victory which the Rothschilds prepared, stamps you as the Napoleon of finance and the man of the times.

"Fear not! The Harrisons, the Sher-mans, the Reeds and the McKineys will never be able to rally the goldites of the Republican side to meet the gold forces commanded by you in the contest you inaugurated for the honor and emoluments of sound money, safe currency and civil service reform. Their indirect methods served well in the past, while secrecy was the road to success, but will fail in the conflict now raging, while the mighty gold forces give battle in view of all men, where the timid time-servers never appear.

The hereditary rights of the descendants of Shylock are safe in your hands. Your decrees of low prices and less wages for those who produce, and more gain and less sacrifice for those who absorb, will be executed by the power you command, while the trimmers and dodgers of the Republican fold are confounded and paralyzed by your boldness and dash.

Yours, very respectfully,

WILLIAM M. STEWART.

"The President"

Executive Mansion, Washington, D. C.

Murdered by a Tramp.

A Genoa Courier extra gives the particulars of a terrible murder that was committed Wednesday afternoon on the old Ferris ranch, four miles south of Genoa. Mr. and Mrs. Wm. Sarmann, an aged couple, resided on the ranch. Mr. Sarmann was absent from home, and between 3 and 4 o'clock in the afternoon Mrs. Sarmann was foully murdered, placed in a bed and the bed set on fire. Mr. Sarmann happened to return home just in the nick of time to save his property, but the murderer had escaped. It was learned that a tramp had called at the house about 11 o'clock and asked for something to eat and was supplied. The same tramp was seen in the neighborhood about 3 o'clock, and it was suspected that he committed the crime. Sheriff McGormack is on his trail and expected to arrest him in a few hours. Mrs. Sarmann was killed with a hatchet, which was afterward found in a wooded covered with blood.

"Columbus Up to Date."

Last night's entertainment by the Carson amateurs was received by a good sized and appreciative audience. The performers were all that was promised, and as a light opera combination would have been a credit to some of our best professionals. The chorus was good, and the careful training of Mrs. D. A. Bender was plainly apparent in every number. The costumes were attractive and stage groupings, effects and marching showed the master hand of John P. Meder, who cannot be beaten in this line.

Miss Cherrie Bender, as the pianist, was perfection. Much depended upon her, notwithstanding she was supported by other instruments in the orchestra. She had a difficult score to follow and did it without the slightest confusion or break.

Mrs. J. D. Torreyson, as Isabella, was every inch a queen and carried her part magnificently. She sings charmingly and her acting is natural and easy.

Miss Brooks has a sweet voice and made a pretty Dolores, and was well received.

Miss Amy Meder was as pretty as a picture, and her solo of "Somebody Loves Me" was too true, for the whole audience was in love with her before she concluded, as was shown by the rousing encore she received.

Mrs. Geo. Cagwin is always good and whenever she sings she touches the hearts of her audience, and every note from her lips is a jewel to a lover of music.

Mr. Mackey makes a good king and acted his part well.

Our Jim Torreyson (for Reno has a partial claim on him) is as jolly on the stage as is his nature off. He sang well, and his manner was easy and he made a good impression.

Olle Tennant, as Columbus, sang his lines like an old timer and his acting was as good as a professional.

The newsboy's chorus was immense and caught the house. Young Rountree's acting and dancing would have made a genuine street gamin green, with envy.

The young ladies in their marches and dancing were great and were attractive features of the entertainment. Their movements were the perfection of grace and their costumes were novel and pretty. Altogether the entertainment was one of the best ever seen in Reno.

Gored by a Bull.

R. Holcombe, a boy about 17 years of age, had a narrow escape from death yesterday morning. He was attending to some cattle in a corral on his father's ranch south of town and while busy a vicious bull in the corral attacked him, knocking him down on the ground, and began rolling him about with his horns. The bull was terribly enraged and it was some time before the young man could escape.

For a time it was thought he had received fatal injuries, and the Drs. Phillips were sent for. Upon their arrival they found that the patient had two ribs broken on the right side and the upper lip badly torn, besides other severe bruises. The physicians are of the opinion that no permanent injury was sustained and that a few days care will bring the young man out all right.

Proposals for supplies.

Sealed proposals will be received until June 5, 1896, for furnishing supplies at the Nevada Hospital for Mental Diseases at Reno for one year from June 5th, 1896. This gives every merchant in the State opportunity to get the contract. There is not the slightest taint of jobbery or robbery in that way of doing business. There is no favoritism, everybody has an equal show and the lowest bidder gets what he is entitled to. See the advertisement and if you want the contract send your bid to the Secretary of the Board.

Japanese Art.

Professor Church of the State University has received three pieces of Japanese cotton cloth, each containing a scene in the war with China. One shows the naval fight on the Yalu river; another a general naval engagement; and the third shows the Japanese ambassadors and Li Hung Chang discussing the terms of peace. The cloth came direct from a cousin of Professor Church now in the Orient, and was mailed about four weeks ago.

Reno Ahead of the World.

There has been placed upon the market lately a "self-opening umbrella" which promises to effect quite a revolution in this useful appliance. The umbrella that has so long been in use has always required the use of two hands to open it. Henceforth the umbrella is to be opened with one hand only. Press a spring close to the handle and the umbrella opens itself. A spring has been released which quickly and firmly opens it and keeps it open, at the same time adding to its strength. The addition is eminently simple, and the extra cost over that of the ordinary umbrella is only trifling. —Examiner, May 6th.

The above is heralded as a new invention, but it is a chestnut. A lady in Reno has an umbrella that was purchased in St. Louis forty-seven years ago and it answers the description of the above. The silk covering is a little worn, but all one has to do is push the button on the handle and the umbrella opens itself. The modern inventor will have to add an April shower to his patent or it don't go.

Grand Officers, A. O. U. W.

The following Grand officers were elected at the grand session of the A. O. U. W. held at Winnemucca Wednesday:

O. A. LaGrave, Grand Master Workman; M. G. Cecil, Grand Foreman; Wm. Mooney, Grand Overseer; J. E. Gignoux, Grand Recorder; F. N. Edmunds, Grand Receiver; J. J. Quinn, Grand Guide; J. A. Wall, Grand Inside Watchman; C. R. Buncel, Grand Outside Watchman; Wm. Pitt, Grand Trustee Long Term; Ed. Reynolds, Grand Trustee Short Term; Supreme Representatives, Wm. L. Taylor, L. M. Gile and F. M. McRae.

School Entertainment.

A delightful entertainment was given by the little tots of the Riverside school yesterday afternoon. Miss Snow, Miss Lawers and Miss Unruh had arranged a splendid program, and it was carried out to perfection, recitations, dialogues, singing and drills were the order. The Senior class of the High school were visitors, as well as many of the parents and friends of the little pupils. The audience praised the entertainment and spoke highly of the progress of the children and the good work of their teachers.

Blood Made Pure

Eczema on Face, Neck and Hands

Hood's Sarsaparilla Cured All Impurity.

Mr. Augustus O. Graham

Tallahas, Ind. Ter.

"Our son Augustus was very severely troubled with eczema. Sores broke out on his face, neck and hands, and the slightest scratch on his hands would break out in bad sores.

We persuaded him to take Hood's Sarsaparilla and it has been two or three months since he has been troubled. His hands are quite smooth. Our nephew, Edgar P. Sawyer, who lives with us, was afflicted similarly only his case was more severe, accompanied by scurfy bunces on his neck. He has taken four bottles of Hood's Sarsaparilla and is now well. His skin is as smooth as any one could wish, and the rising on his neck have disappeared." Mrs. M. J. GRAHAM, Box 173, Tallahas, Ind. Ter.

Hood's Pills cure all Liver Ills, Biliousness, Jaundice, Indigestion, Sick Headache.

PALACE DRY GOODS AND CARPET HOUSE

—There's some mysterious magic in the words—

"SPECIAL SALE!"

Judging by the number of times it is used outside of this store. The mere saying "Special Sale" doesn't make goods good or extra cheap, and often times an expensive lesson is the result. We can tell the merit and value of an article without newspaper letters two inches long, and its so in to-day's store news. A particular lot of bright, fresh things are considerably price-marked, but we are sorry the quantities can't be larger. Call soon and see them.

NOTICE OF SALE OF PERSONAL PROPERTY.
NOTICE IS HEREBY GIVEN THAT UNDER and by virtue of a chattel mortgage executed to me by John Armstrong on the 24th day of June 1895, and recorded in Book 2 of Chattel Mortgages, page 42, in the Recorder's office of Washoe County, Nevada, to secure his promissory note to me for \$200 with interest thereon from June 24, 1895, at the rate of 10 per cent per month, due November 1, 1895, on which note only \$20.00 of interest has been paid. I Benjamin Lachman will on
The 16th day of May, 1895,
Between the hours of nine o'clock in the forenoon and five o'clock in the afternoon, sell at public auction to the highest bidder, for cash, all that certain stock of saddlery, harness, robes, blankets, whips, hardware and stock in trade now on hand and remaining unsold and heretofore delivered into my possession and now stored in my brick building on the south half of lot 5, in block 3, of Reno in said county and State, being the remains of the general outfit and stock in trade of said John Armstrong described in said chattel mortgage, and all of said property will be sold, said brick building (fronting on Sierra St.) to satisfy and pay said note as far as the proceeds of such sale will go, on the day and here the lectures are given and continuing from day to day thereafter between the same hours, and at the same place. All members in good standing are cordially invited to attend. J. V. PERRA, Secretary.

BIDS WANTED.
PROPOSALS FOR BOYS' DORMITORY.
The Regents of the Nevada State University will receive sealed proposals for all the necessary work and material for the construction of a boys' dormitory, to be located on the University campus, near the University Hall. The plans and specifications are on file in the office of the President of the University. Said proposals must be filed with the Secretary of the Board of Regents before 12 o'clock noon.
Wednesday, May 15, A. D. 1895.
The bids will be opened at the office of the Board of Regents at 1 o'clock P. M., Wednesday, May 15, 1895. Each bid shall be accompanied by a bond of one thousand dollars with two approved sureties for the faithful performance of the contract in case of acceptance of the bid. The Regents reserve the right to reject any or all bids.
J. H. TAYLOR, Secretary
Reno, Nevada, April 9, 1895.

ASSESSMENT NOTICE.
ORE EXTENSION DITCH COMPANY—office and principal place of business, Reno, Nevada, location of property, Sierra and Springs Valley. Notice is hereby given that at a meeting of the Ore Extension Ditch Company on Saturday, the 6th day of April, an assessment of fifteen dollars per share was levied upon each and every share of the capital stock of the company, payable to the Secretary. Any stock upon which said assessment has not been paid on or before
Monday, the 16th day of May, 1895, will be deemed delinquent, and will be advertised and sold at public auction to such delinquent assessment, costs of advertising and expense of sale.
J. C. OSBURN, Secretary
April 1st

M., and the south-east quarter of section eighty-nine (89) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety (90) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-one (91) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-two (92) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-three (93) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-four (94) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-five (95) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-six (96) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-seven (97) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-eight (98) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section ninety-nine (99) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred (100) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and one (101) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and two (102) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and three (103) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and four (104) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and five (105) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and six (106) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seven (107) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eight (108) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and nine (109) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ten (110) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eleven (111) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twelve (112) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirteen (113) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fourteen (114) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifteen (115) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixteen (116) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventeen (117) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighteen (118) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and nineteen (119) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty (120) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-one (121) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-two (122) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-three (123) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-four (124) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-five (125) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-six (126) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-seven (127) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-eight (128) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and twenty-nine (129) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty (130) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-one (131) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-two (132) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-three (133) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-four (134) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-five (135) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-six (136) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-seven (137) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-eight (138) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and thirty-nine (139) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty (140) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-one (141) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-two (142) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-three (143) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-four (144) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-five (145) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-six (146) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-seven (147) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-eight (148) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and forty-nine (149) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty (150) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-one (151) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-two (152) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-three (153) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-four (154) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-five (155) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-six (156) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-seven (157) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-eight (158) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and fifty-nine (159) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty (160) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-one (161) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-two (162) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-three (163) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-four (164) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-five (165) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-six (166) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-seven (167) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-eight (168) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and sixty-nine (169) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy (170) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-one (171) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-two (172) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-three (173) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-four (174) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-five (175) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-six (176) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-seven (177) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-eight (178) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and seventy-nine (179) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty (180) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-one (181) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-two (182) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-three (183) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-four (184) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-five (185) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-six (186) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-seven (187) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-eight (188) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and eighty-nine (189) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety (190) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-one (191) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-two (192) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-three (193) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-four (194) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-five (195) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-six (196) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-seven (197) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-eight (198) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section one hundred and ninety-nine (199) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred (200) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and one (201) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and two (202) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and three (203) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and four (204) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and five (205) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and six (206) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and seven (207) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and eight (208) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and nine (209) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and ten (210) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and eleven (211) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and twelve (212) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and thirteen (213) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and fourteen (214) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and fifteen (215) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and sixteen (216) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and seventeen (217) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and eighteen (218) in Township thirteen, north, range eighteen, east, of the 3rd P. M., and the south-east quarter of section two hundred and nineteen (219) in Township thirteen, north, range eighteen, east, of the 3rd P.
